

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Michaelangelo Volpe  
DOCKET NO.: 03-22324.001-R-1  
PARCEL NO.: 09-23-103-060

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Michaelangelo Volpe, the appellant, by Attorney Melissa K. Whitley with the law firm of Marino & Associates in Chicago; and the Cook County Board of Review.

The subject property consists of 7,215 square foot parcel improved with a 41-year old, multi-level, frame and masonry, single-family dwelling. The improvement contains 1,845 square feet of living area as well as one bath, a partial basement, air conditioning, one fireplace, and a two-car garage.

At hearing, the appellant argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

The appellant's pleadings included data, descriptions, and photographs of three suggested comparables located within a four-block radius of the subject. These properties are improved with a multi-level, single-family dwelling of masonry or frame and masonry exterior construction. They range: in bathrooms from one to two; in age from 43 to 44 years; and in size from 1,324 to 1,674 square feet of living area. Amenities include a partial basement, air conditioning, and a multi-car garage. The improvement assessments range from \$8.94 to \$9.92 per square foot. On the basis of this comparison, the appellant's attorney requested an assessment reduction.

The board of review submitted "Board of Review Notes on Appeal" wherein the board's final assessment decision was presented reflecting an improvement assessment of \$20,364 or \$11.04 per square foot. The board of review also submitted copies of property characteristic printouts for the subject and three

suggested comparables. The properties contain a multi-level, frame and masonry, single-family dwelling. They range: in age from 34 to 41 years; in bathrooms from one and one-half to two and one-half; and in size from 1,440 to 1,622 square feet of living area. Amenities include: a partial basement, air conditioning, and a two-car garage. The improvement assessments range from \$12.89 to \$13.53 per square foot. In addition, the board submitted copies of its file from the board of review's level appeal. At hearing, the board of review's representative indicated that the properties were located within a one-block radius from the subject. As a result of its analysis, the board requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. The PTAB finds that the appellant has not met this burden and that a reduction in the subject's assessment is not warranted.

In totality, the parties submitted six equity comparables. The PTAB finds that appellant's comparable #3 as well as the board of review's comparables #2 and #3 are most similar to the subject property. These three comparables contain a multi-level, frame and masonry, single-family dwelling. They range: in age from 34 to 44 years; in size from 1,602 to 1,674 square feet of living area; and in improvement assessments from \$9.92 to \$13.36 per square foot. In comparison, the subject's assessment stands at \$11.04 per square foot of living area, which is within the range established by these comparables.

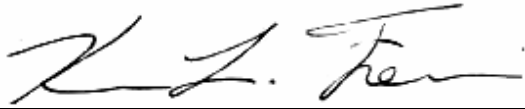

The PTAB further finds that the remaining properties were accorded diminished weight due to a disparity in improvement size.

On the basis of the evidence submitted, the PTAB finds that the evidence has not demonstrated that the subject's improvement is assessed in excess of that which equity dictates. Therefore, the PTAB finds that a reduction in the subject's improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
